

**INN**HANSE unveils the  
**total solution**  
 for the Hospitality Industry

*The QuickSilver Turn-Key System of High-Speed Internet Access & Communications Technology ...*

*With Unique SmartCard Functionality*

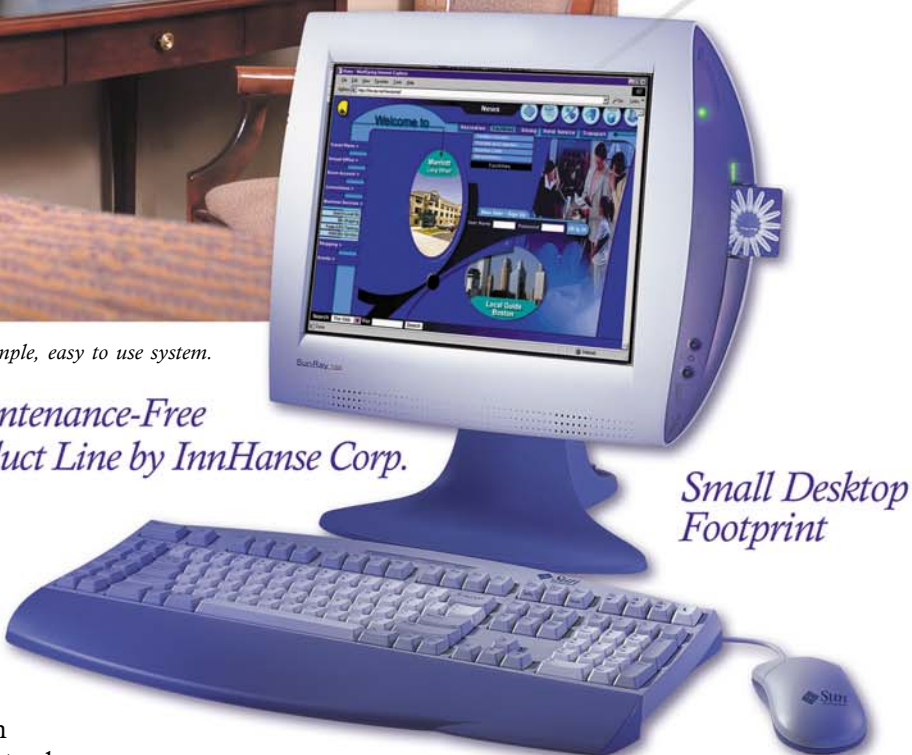

*Increase guest service and customer loyalty with this simple, easy to use system.*

*The Thin-Client Appliance, Maintenance-Free Interface for the QuickSilver Product Line by InnHanse Corp.*

**Benefits & Features:**

- No Desktop Equipment Support Required
- Internet & Email Access without a Laptop
- Laptop Connectivity Options Available
- Safe, Secure, Private and Dependable
- Server Based Remote Upgrade Capabilities
- Operates Separately from Hotel PBX System
- Eliminates Printing Costs for In-Room Collateral

*Small Desktop Footprint*

*In the Hospitality marketplace, the QuickSilver high-speed Internet access solution is recognized for its dependable, flexible and secure service delivery.*

*InnHanse offers a complete turnkey solution for properties that want to increase guest service, improve operational efficiencies and better market their in-house services and facilities to their clientele.*

*QuickSilver appliances are the ideal way to provide hotel guests with instant access to the Internet at blazing speed. Easy-to-use, easy-to-maintain, just like the TV and Telephone. And just like the TV and Telephone, the QuickSilver appliance is sure to become an indispensable fixture in your rooms.*

**Sample:** Convention Portal Home Page

**Sample:** Hotel Portal Services Page
